

## ELIA MODULAR OFFSHORE GRID (MOG)

**CLIENT** | TIDEWAY

**VESSEL** | LIVING STONE

### EQUIPMENT & SERVICES PROVIDED

- 600Te Modular Storage Basket
- Loading Tower c/w 5Te Spooling Tensioner
- 15Te Tensioner - Quayside
- 4m MBR Chute - Quayside

### PRODUCT DETAILS

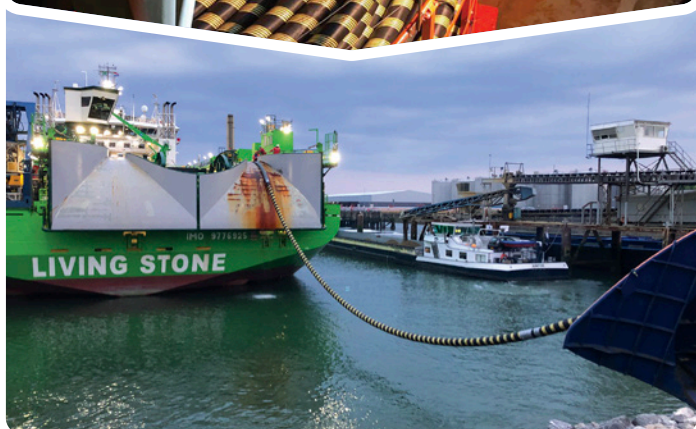

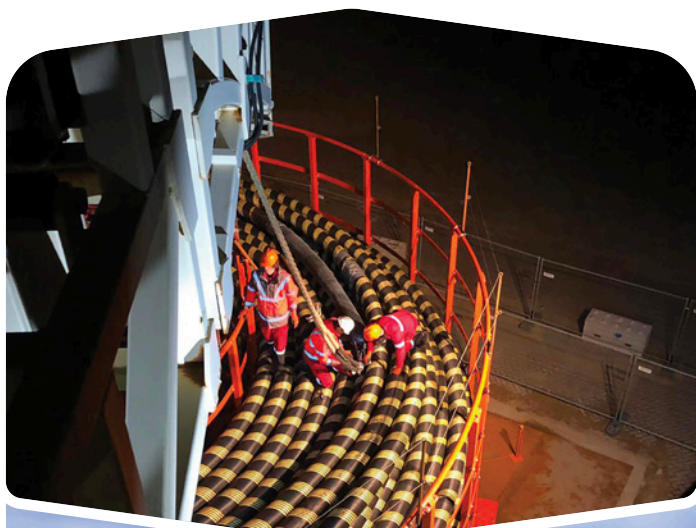

- HVAC EXPORT CABLE - 600TE, 276MM OD, 110 KG/M

### PROJECT OVERVIEW

Swan Hunter were awarded a contract for onshore storage and spooling of HVAC export cable for developer Elia's Modular Offshore Grid (MOG) Project in Belgian North Sea Sector.

The product was spooled with Swan Hunter's 1000Te Modular Carousel System, with the modular basket subsequently relocated with SPMT's to final storage location on site.

Swan Hunter were responsible for project management & engineering, site mobilisation, spooling operations, basket relocation, UV protection installation, and long term storage.

#### SWAN HUNTER'S SCOPE OF WORK

- Cable Storage Yard & Services
- Provision of 1000Te Modular Carousel System
- Provision of Loading Tower c/w 5Te Spooling Tensioner
- Provision of 4m MBR Chute
- Cable Highway
- Mobilisation, Operational, and Engineering Support
- Complete Onshore Spooling Teams
- Equipment Operators
- Project Management & Engineering

#### DETAILED ANALYSIS

- Planning and Execution for all aspects of the onshore spooling and cable handling operations, full service solution.
- Provision of 1000Te Modular Carousel System incorporating 1000Te liftable basket, allowing client full flexible options with long term cable access and storage solutions.
